

Collaboratively create a Whare Tapa Whā wall display

Here's our super mosaic for younger children – all you need to do is print off each of the 12 pages on A4 paper, ask tamariki to colour it in, and voilà... fit the pieces together to create a wall display.

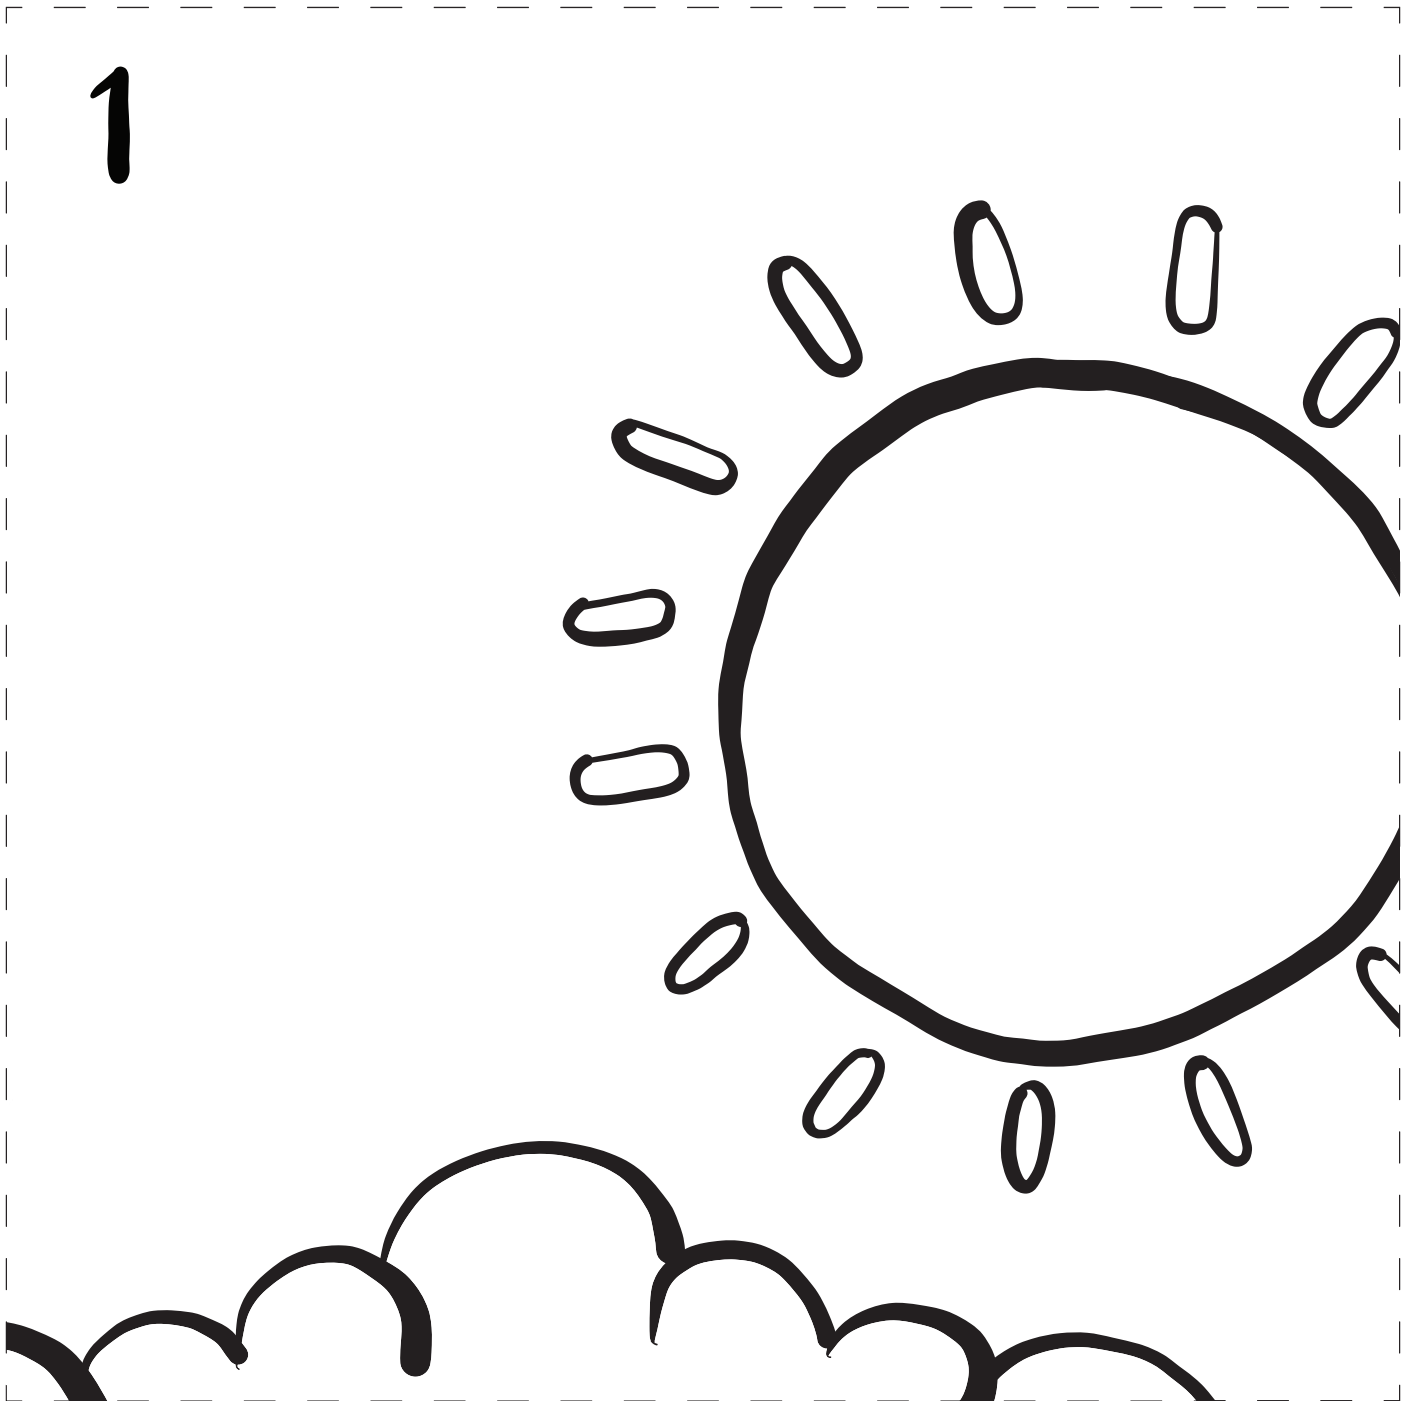

Once pieced together the mosaic's dimensions will be 836mm wide and 627mm high.

Create a Whare Tapa Whā wall display

Colour in your section, once you're done, cut out the square along the dotted line.

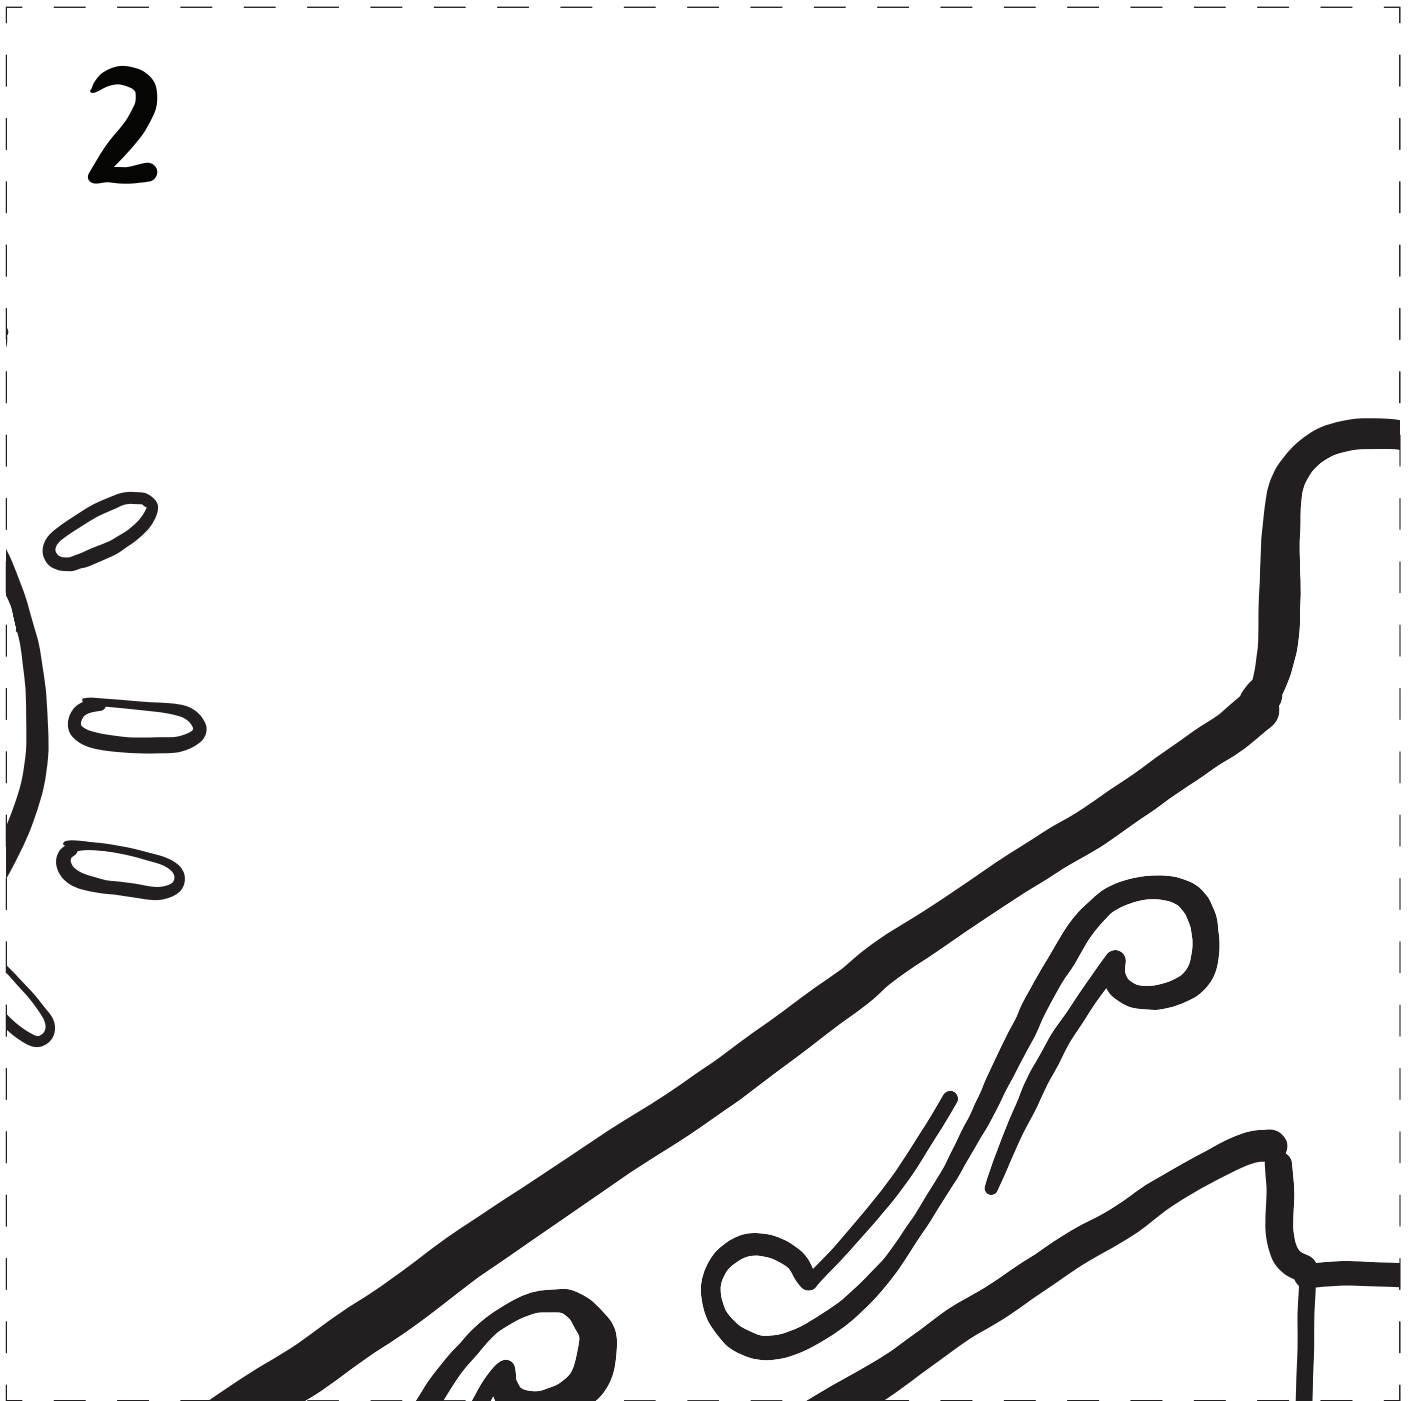

Then piece the mosaic together with your classmates!
