

# Collaboratively create a Fonofale wall display

Here's our super mosaic – all you need to do is print off each of the 35 pages on A3 paper, ask fanau to colour it in, and chee-hoo... fit the pieces together to create a wall display.

Once pieced together the mosaic's dimensions will be 1.75 metres wide and 1.25 metres high.

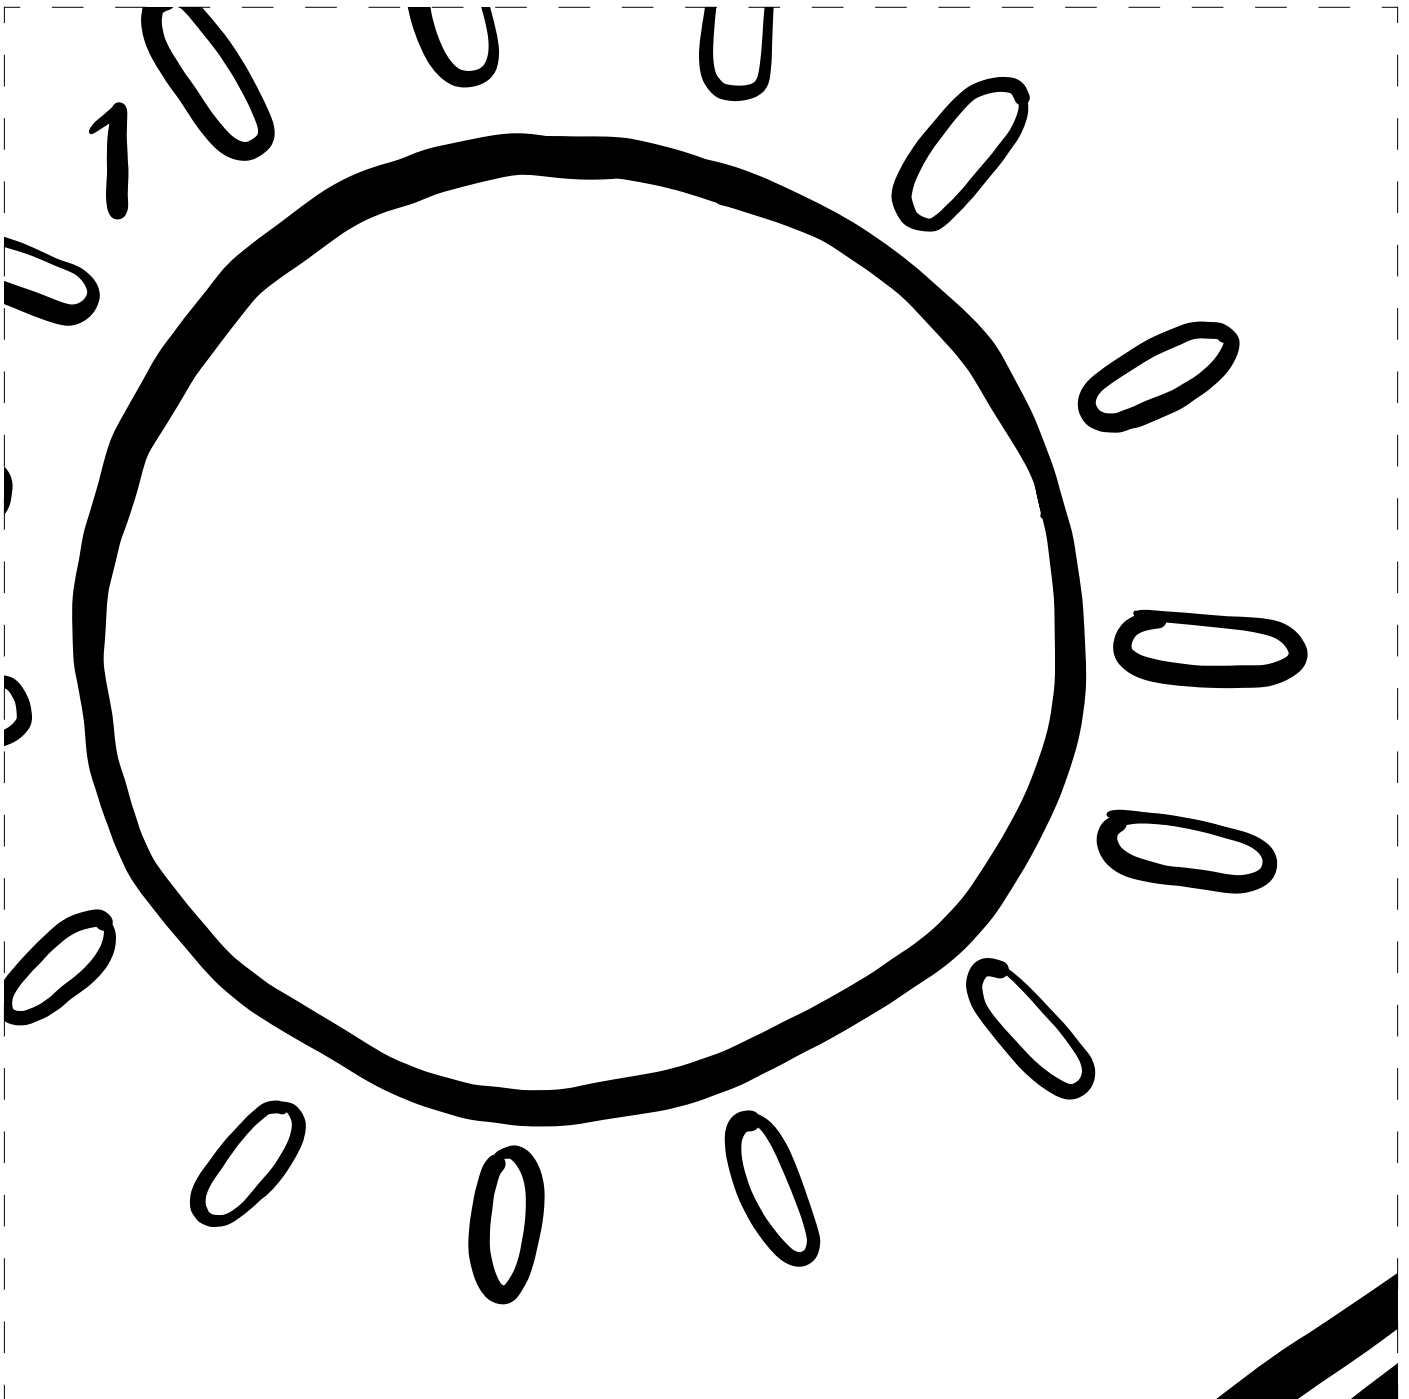

*We acknowledge Fuimaono Karl Pulotu-Endemann as the creator of the Fonofale model of health. You can read more about Fonofale [here](#).*

# Create a Fonofale wall display

Colour in your section, once you're done, cut out the square along the dotted line.

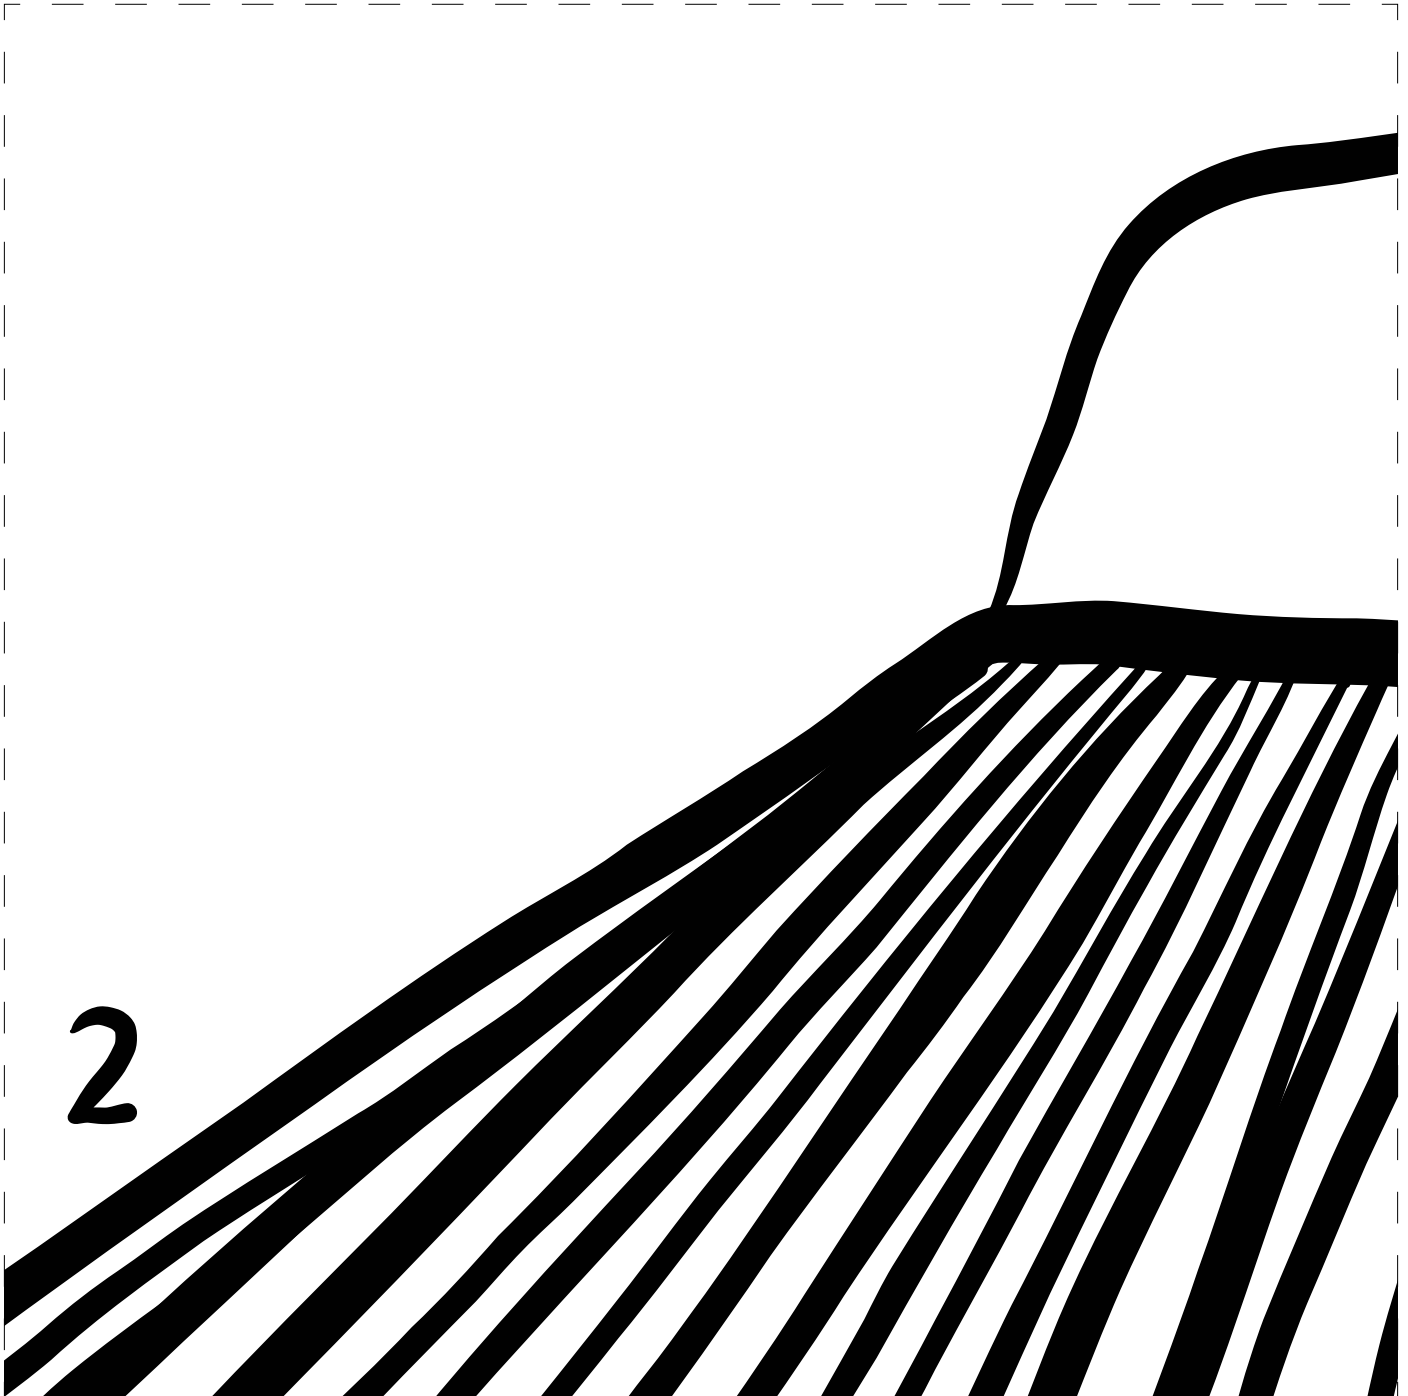

Then piece the mosaic together with your classmates!
